

ELECTRONICS POLICY

Take control of your learning!

BGA classroom spaces are free of electronic distractions and interruptions so that you can focus on your learning.

1

Upon entering a classroom, silence your device and place it in your assigned sleeve. Take any earbuds or headphones out of your ears and put them away.

2

Unless your teacher has approved its use, leave your device in its sleeve for the entire class period – including any nurse, bathroom, or hallway breaks.

3

At the end of class, when directed by your teacher, collect your device from its sleeve.

4

You may freely use your device in the hallways during transition times and at lunch.

5

If you hide your device or refuse to place it in its sleeve at the start of class, SST will keep the device for the remainder of the school day.

Frequent and/or flagrant abuses of this policy will result in additional consequences.
