

**School Counseling
Department
Mission Statement**

The school counseling department uses a student-centered, strength-based approach to support all students. We prepare all students for post-secondary experiences by creating a positive school culture that drives student attendance, encouraging students to challenge themselves and engage in rigorous coursework, and helping students develop their social and emotional intelligence through positive relationships, restorative justice, and career exploration. We provide freedom for students to make mistakes, the support to overcome them, and the power to move forward.
